② Key functions

③ Process

Process	Member Management		
Users	Sign up	Management	Withdrawal
Trainee	 1.1.1 Registration membership ➤ trainees from 70 institution 1.1.2 System usage	1.1.3 Edit member information	1.1.4 Membership Withdrawal
CGO / Company	 1.2.1.1 Request for membership  1.2.1.2 Request for membership (with Company Information) 1.2.3 System usage	1.2.4 Edit member information	
TVEC Admin.	1.2.2 Membership approval		1.2.5 Membership Withdrawal

[Sign up]

- Membership registration (Trainee/CGO: NIC)
- CGO and companies need TVEC's approval

[Member information management]

- Membership information is modified without approval
- Manage the password for the site

[Member withdrawal]

- Trainees can directly withdraw. If sign up for a new membership after withdrawal, users cannot view history.
- The membership withdrawal of the CGO and the company is done by the TVEC admin.

[Career Test and Consultation reservation]

- Trainees can select career tests and view their results after the test, and they are directed to the NIE site to upload their results. CGOs can view trainees' career test results.
- Trainees can make an online reservation for counseling regardless of their career test. When a trainee goes to the institution in person to consult, the CGO registers the list of counselors.

[Guidance]

- When a trainee registers the district and time when making a reservation online, it is automatically assigned to a consultable CGO.
- Assigned CGOs can confirm or reject. The TVEC administrator monitors the consultation reservation allocated to the CGO that cannot be confirmed. If CGO rejects the assigned counseling more than three times a month, an alarm is raised.
- The guidance results must be registered after the guidance. During guidance, CGO can inquire about the trainee's career test results and portfolio information.
- After the guidance, the trainee can view the results after conducting a CGO satisfaction survey.
- In the case of online inquiry counseling, when the trainee registers the counseling request details, the assigned CGO can answer through the platform.

**[Portfolio management]**

- Trainees register their portfolio information.
- Education and qualification information is automatically obtained from TVEC. Trainees can additionally register information in their portfolios.
- If the trainee chooses to disclose the portfolio, the company can view the trainee's information.

[Guidance]

- Trainees can consult with CGO about their portfolio (The guidance process is the same)

[Employment support]

- When a company registers recruitment information, trainees can apply. CGO can also recommend trainees to companies.
- When a company selects among applicants and the recommended candidates, an alarm is provided to the trainee, and when the company is selected as the final employee, the result is also registered.
- If a trainee checks the disclosure of information in the portfolio, the company can inquire about the trainee's portfolio information.

[OJT]

- OJT information is registered by companies and CGOs, and trainees and CGOs can inquire.
- CGO recommends trainees by looking at the OJT details, and the results can be viewed on Company and NAITA.
- Trainees register their results in the portfolio at the end of OJT.

[Contents and Event]

- CGO and Companies can upload their events or content, and if the TVEC administrator approves, the entire user can inquire through the system.

[Notice]

- All users can inquire by registering TVEC's announcements or frequently asked questions and answers.

[Q&A]

- If users leave questions, CGO, companies, and TVEC will write answers.
- The user may select an object to be answered when leaving a question.

Title

Straightforward Career and Job Advice 123

Detail

It's all too common for us to think of our work as either the thing that gives us our identity, or something to be avoided at all cost, or some unhealthy combination of those two misleading philosophies. In this video, Fr. Mike aims to bring inspiration to our everyday jobs by showing us how our labor can be a way to share in God's nature. By striving to look past humanity's brokenness and sin, we can move beyond seeing work as a burden, and see how every act of work has dignity.
